PAPERS IN CONNECTION WITH THE BUBONIC PLAGUE.

WEEKLY REPORT OF PLAGUE IN THE MYSORE STATE, EXCLUDING THE CIVIL AND MILITARY STATION, FOR THE WEEK ENDING 7TH APRIL 1899.

Bangalore City.

I. The following are the figures in the City up to date :—

	Plague cases.	Plague deaths.	Deaths from all causes.	Normal recorded mortality in the same period.
From 12th August 1898 to 10th March 1899 ...	3,332	2,653	7,148	771
Week ending 17th March 1899 ...	2	2	26	32
Week ending 24th March 1899	...	...	35	32
Week ending 31st March 1899	*1	...	28	32
Week ending 7th April 1899	...	*1	41	35

There was no plague case during the week, and the one death was that of the imported case reported last week.

The City has now been free from indigenous plague for the last 3 weeks, and the question of declaring it free from infection and of removing it from the list of infected areas is under consideration.

The total mortality was only 6 above the normal average. The number of arrivals was 1,824 as against 1,584, the population of the City being estimated at 60,711 as against 59,906 at the end of the previous week.

II. The figures for the Health and Segregation Camps were as follows :—

	Remaining.	Admitted.	Discharged.	Developed plague.	Remaining.
Health Camps ...	392	133	6	...	519
Segregation Camps ...	8	....	7	...	1

III. During the week under report there were 207 first and 3 second inoculations, bringing the totals to 33,748 and 1,378, respectively. No inoculated person was attacked with plague during the week.

IV. The Hospital figures were as follows :—

	Remaining.	Admitted.	Discharged.	Died.	Remaining.
For the week ...	1	...	...	1	...
Since commencement ...	...	2,097	742	1,355	...
Inoculates ...	...	106	65	41	...

V. The number of houses disinfected during the week was 246 as against 197 in the previous week; of these, 200 were deserted houses, 32 were plague-infected, and 14 were locked-up ones opened under Government Notification No. 5235-Pg. 21—96, dated 15th October 1898.

VI. During the week under report, permission was given to re-occupy 83 houses, and no charge was levied for disinfecting 20 houses, ; 3 houses were disinfected by the owners themselves, and the charges realised from the remaining 60 amounted to Rs. 110.

VII. The cost of road-work and earth-work in the Basavanagudi and Malleswaram extensions, carried out during the week, amounted to Rs. 2,350 as against Rs. 2,736 in the previous week, bringing the total amount spent up to date to Rs. 53,586.

VIII. The number of infected houses and houses unfit for human habitation demolished during the week was 21, the total number demolished up to date being 466 ; and the number of houses removed for opening out the congested parts of the city was 8, the total up to date of such houses being 511.

IX. During the week 5 persons were prosecuted for violating the Epidemic Diseases Regulation as against 8 in the previous week, of whom 1 was acquitted and the remaining 4 convicted. Of these, one was fined Rs. 20 for failing to report the departure from, and the arrival to his house, of a member who subsequently died of plague ; another accused, a woman, was fined Rs. 5 for having concealed a plague death and buried the corpse in her own house ; the third was fined Rs. 2 for having failed to report the sickness of his child which died subsequently of plague ; and the fourth, annas 12 for failure to report the departure of a member of his family.

X. During the week 568 in-coming passengers, or a daily average of 81, were disinfected with their effects at the City Railway Station.

Mysore State outside Bangalore.

XI. The accompanying weekly return shows the state of the Epidemic in the Province. During the week under report, there was a decrease in the number of cases in all the four affected districts, except Kolar Gold Fields.

XII. In the Bangalore district, excluding Bangalore City, the number of cases decreased from 24 to 14. The taluks of Bangalore and Kankanhalli have now been free for two weeks continuously, and Magadi for 6 weeks. Nelamangala, which had no cases in the previous week, had two during the present week ; and in the taluk of Channapatna, which had been free for 3 weeks, one village became freshly infected with 4 cases. In Hoskote taluk the number of cases decreased from 6 to 2, in the Anekal taluk from 9 to 3, and Devanhalli taluk ; and Closepet sub-taluk, which had 6 and 1 cases, respectively, during the past week, had no cases during the present week, while in Dodballapur the number of cases increased from 2 to 3.

XIII. In the Kolar district, excluding Gold Fields, the number of indigenous cases was the same as in the past week, viz. 10, but these all occurred in one place, Bowringpet. The Taluks of Kolar, Chikballapur and Malur have now been free for 2 consecutive weeks, and Goribidnur for 1 week.

In the Gold Fields the number of indigenous cases increased from 58 to 75, and the number of infected villages from 19 to 21.

* Imported.

The following statement shows the number of cases and deaths among the several mines for the past 4 weeks :—

XIV. In the Tumkur district, the number of cases decreased from 11 to 8, and the number of infected villages from 11 to 5. There were no cases in the sub-taluk of Kortagere and the Kunigal taluk. The 8 cases were confined to two villages in Tumkur taluk, the town of Tumkur remaining free as in previous weeks.

XV. In the Mysore district, excluding Mysore City, the number of cases decreased from 9 to 7, the number of infected villages, *viz.* 6, remaining the same as in the previous week. Of the 7 cases, 4 occurred in the Mysore taluk and 3 in Mandya taluk. No cases occurred in Seringapatam taluk.

XVI. In the Mysore City the figures were as follows :—

	Plague cases.	Plague deaths.	Total mortality.	Normal recorded mortality during the same period for the past 5 years.
For the week ending 17th March 1899 ...	110	91	139	36
For the week ending 24th March 1899 ...	73	70	120	36
For the week ending 31st March 1899 ...	69	59	101	36
For the week ending 7th April 1899 ...	64	54	101	31

The decrease was slight in the number of cases and deaths, the total mortality remaining the same.

XVII. Returns similar to those furnished in the case of Bangalore City have been called for from Mysore, and the following are taken from some of those received for the week.

XVIII. The total number of arrivals during the week was 1,785 and that of departures 1,483, the total population at the close of the week being 59,007 as against 58,763 at the end of the previous week.

XIX. The figures for the Segregation Camp were as follows :—

	Remaining.	Admitted.	Discharged.	Developed plague.	Remaining.
During the week	19	8	15	...	12
Since commencement	...	569	525	32	12

XX. There were 13 first inoculations and no second inoculation during the week, bringing the totals from commencement to 29,867 and 94, respectively.

XXI. The Hospital figures were as follows :—

	Remaining.	Admitted.	Discharged.	Died.	Remaining.
For the week ...	65	5	6	1	63
Since commencement		251	57	131	63

XXII. 238 houses were disinfected in the City during the week, the total number of such houses disinfected from the commencement being 2,255.

XXIII. 440 persons, or a daily average of 62 persons, were disinfected at the Mysore City Railway Station.

Extract from the Diary of Mr. C. Haudin, District Plague Officer, Kolar, for the week ending Friday 7th April 1899.

Disinfection.—I inspected Malur town this morning. 170 houses in all have been thoroughly disinfected, lime-washed and ventilated since the 19th of last month, the date on which the work of disinfection was taken in hand. This gives an average of nearly 9 houses per day. The work has not been scamped but thoroughly well done. The disinfection of the other houses is being proceeded with and as I am on the spot and intend to remain here for a few days, I will see that rapid progress in this direction is made both here and at Lakkur.

Sanitation.—To improve the sanitation of Malur several old walls and a few dilapidated houses have been dismantled. Ten conservancy lanes have been opened out, and it is intended to open out seven more, three of which are in hand. * * *

Extract from the Diary of the Chief Plague Officer, Mysore, dated 9th April 1899.

* * * Granted certificates for re-occupation of some of the houses, but as many others were in need of better ventilation, withheld issue of certificates for them, and pointed out to them where holes should be made in the walls to admit light and ventilation, directing the Assistant Ward Officer, Sheik Abdulla, to see that this is done, and explaining to the owners of such houses that they could not be allowed to occupy them until the instructions had been fully complied with.

* * * *

Extract from the Diary of the Chief Plague Officer, Mysore, dated Tuesday, 11th April 1899.

* * * *

At first the Holeyars of Padavarhalli had shown great aversion to lime-washing the interior of their houses, stating that they could not do so as it was not usual among them and would therefore be displeasing to their deity. So it became necessary to enter into some argument with them. They could not help admitting that they had never had plague amongst them before, and that they had never before in their lives completely evacuated all their houses to go and live in sheds at a distance from them. Finally they were satisfied that as these two unusual incidents in their lives had not apparently caused any displeasure to their deity, they should have no reason to fear that a third unusual incident of lime-washing the interior of their houses would cause any such displeasure. Thus they consented to do the necessary lime-washing themselves; and owing to the energetic work of the Assistant Ward officer, Sheik Abdulla, they have not only done this thoroughly, but have also been induced to make good sized openings in the walls of their houses, where necessary, to admit light and ventilation.

The latter they were at first adverse to on the plea that openings in the walls of their houses would expose their property to theft, but this objection was overcome by explaining to them that they could fix frames and bars to such openings.

* * * * 2 H
